Šimonovičová A. (1998): The occurrence of the rare species *Circinella umbellata* (Mucorales) – Czech Mycol. 50: 245–248

The rare species *Circinella umbellata* Tiegh. et Le Monn. was isolated from Eutric Fluvisol (Je) below an abandoned meadow, Gabčíkovo, Slovakia. In this paper we are giving a description and Scanning Electron Microscope photographs and light microscope photographs.

**Key words:** microfungi, Zygomycetes, Mucorales, *Circinella umbellata*.

Šimonovičová A. (1998): Výskyt vzácneho druhu *Circinella umbellata* (Mucorales) – Czech Mycol. 50: 245–248

Vzácny druh *Circinella umbellata* Tiegh. et Le Monn. bol izolovaný z fluvizeme typickej (Je) pod neobhospodarovaným lúčnym porastom v Gabčíkove. V práci uvádzame popis kultúry a fotodokumentáciu na SEM a vo svetelnom mikroskope.
